IMAGINE, ENABLE, EMPOWER WITH TECHNOLOGY THAT MATTERS!

About Me

Technologist and C-Suite executive, highly results driven, solution oriented, moving forward, with a passion for technology, data, AI, and the dynamic interaction of people and systems to drive innovation.

Why me

Holding a Bachelor's and Master's in Computer Science, experienced over 20 years in industries with **strong supply chain optimization**, also high regulated, engineering and manufacturing in logistics, government, aerospace, food, FMCG, distribution, retail, aviation, I learned to rapidly adjust digital transformation agendas to the company change appetite, executing during growth, major costs and risks mitigations, M&A, carve-out, restructuring, new boards and executives changes, crisis, new operating models and phases of accelerated innovation. I'm then the ideal partner of choice to navigate thru a fast evolving technology market, also in crisis time, target right solutions to make innovation real, valuable, sustainable and lasting.

What I deliver

Challenge status quo in global multibillions corporates, driving transformational change with full accountability, navigating complexity and unlocking new opportunities and efficiency during digital journeys.

Comprehensive set of technology competences in IT, Cyber, Business Technology

Charismatic, Transformational, Servant Leadership, focus on develop and up-skill organizations during key transformation phases.

Able to execute from high strategic to operational detailed level, leading by example and ensuring change becomes real.
